DETAILED ACTION

1. This Office Action is in response to the amendment filed on 7/10/02 as Paper No.

4. Claims 67-76 and 86-88 have been cancelled and replaced by new claims 89-108.

The rejection of claims 67-76 and 86-88 under 35 U.S.C. 103(a) has been withdrawn in view of Applicant's amendment.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 89-108 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Beuther et al. (US Patent 4,493,905).

Beuther et al. discloses a catalyst useful in the conversion of synthesis gas to diesel fuel, wherein the catalyst is comprised of cobalt on a gamma-alumina support, which have a high attrition resistance for hydrocarbon liquid synthesis (see abstract and col. 1, line 10 – col. 2, line 8).

The Examiner recognizes claims 89-108 as product-by-process claims. The Patent Office bears a lesser burden of proof in making out a case of *prima facie* obviousness for product-by-process claims. Once a rationale tending to show that the claimed product appears to be the same or similar to that of the prior art, although produced by a different process, the burden shifts to applicant to come forward with

evidence establishing an unobvious difference between the claimed product and the prior art product. *In re Marosi*, 710 F.2d 798, 802, 218 USPQ 289, 292 (Fed. Cir. 1983).

4. Claims 89-108 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Comolli et al. (US Patent 5,037,791).

Comolli et al. discloses having a cobalt metal deposited on a gamma-alumina support, which exhibits reduced attrition losses (col. 1, lines 38-40; col. 2, line 64 – col. 3, line 4). The catalysts may be used in hydrocarbon production (col. 6, line 9).

The Examiner recognizes claims 89-108 as product-by-process claims. The Patent Office bears a lesser burden of proof in making out a case of *prima facie* obviousness for product-by-process claims. Once a rationale tending to show that the claimed product appears to be the same or similar to that of the prior art, although produced by a different process, the burden shifts to applicant to come forward with evidence establishing an unobvious difference between the claimed product and the prior art product. *In re Marosi*, 710 F.2d 798, 802, 218 USPQ 289, 292 (Fed. Cir. 1983).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
